

The difference between Internet Explorer and Edge.

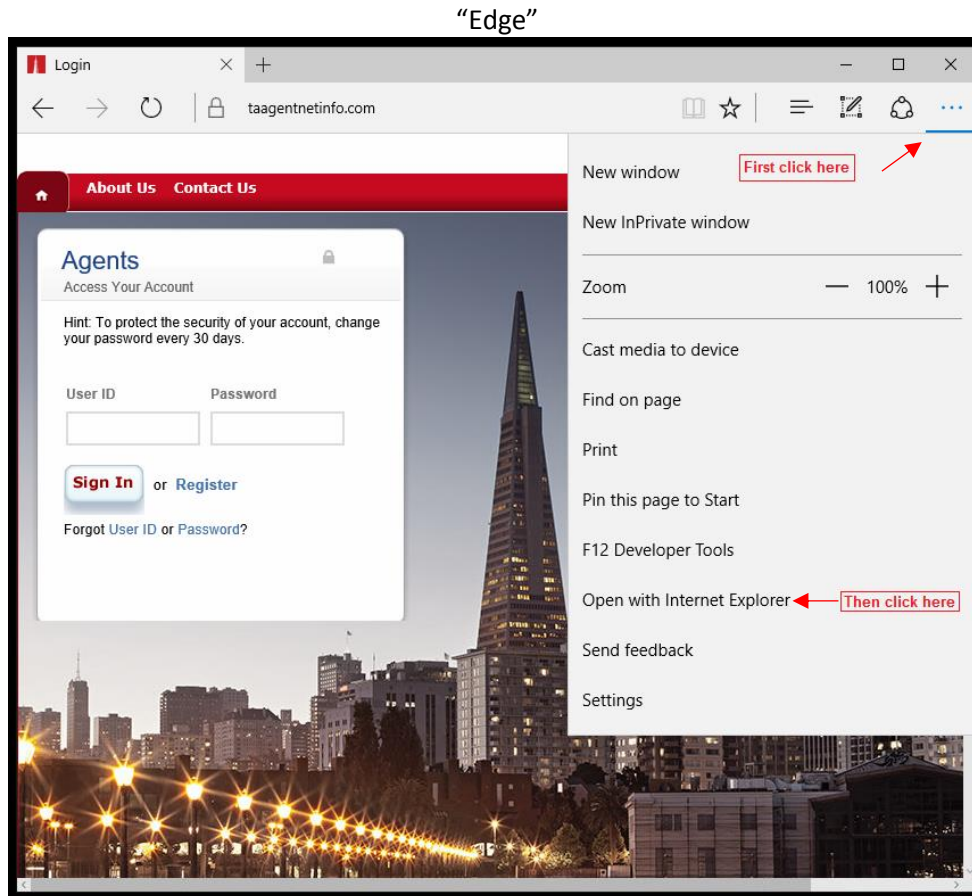

Transamerica's website works best when using Internet Explorer. The default internet browser in the latest version of Windows, version 10, is called Edge. Edge has a different icon compared to Internet Explorer, both icons are shown below:

How to open a website in Internet Explorer while in Edge.

Step 1: Navigate to any desired website (taagentnetinfo.com is shown below, for example).

Step 2: Click on the Menu button  in the upper right hand corner, then in the pull-down menu, click on **'Open with Internet Explorer'**.

Then you should see Taagentnetinfo.com in Internet explorer.

“Internet Explorer”
